

QUALITY POLICY

of the Military Aircraft Works No. 4 SA in Warsaw

Policy of Military Aircraft Works No 4 SA is continuous improvement of the products repair process to increase Customers satisfaction as well as offering high quality products, which are safe, reliable and efficient through the life cycle.

To achieve this objective we utilize our Management System as well as our activities performed in the fields of purchasing, repair and guarantee service. Expression of this policy and such understanding of Customers' quality requirements is the principle obligatory to all WZL-4 SA employees:

Fulfillment of Customer Requirements Within the Time Limits

The objectives of our Quality Policy are as follows:

- repair of products in accordance with Customers expectations, requirements of standards, supervisory authorities and adapted source documentation;
- **performance of services according to customer expectations, requirements of standards, supervisory authorities and adapted source documentation;**
- continuous knowledge improvement by the staff following increased needs and quality requirements;
- transfer of authorities in relation with implementation of the principle that tasks, responsibilities and authorities have to be corresponding;
- continual analysis of Customers needs and expectations.

Warranty of the QUALITY POLICY realization is continual improvement of QUALITY MANAGEMENT SYSTEM applied in WZL-4 in accordance with PN-EN ISO 9001:2001 and AQAP-2120 rev.2 requirements in WZL-4, and for the Aircraft Engine Test Cell No. 2 - PART-145 and AS 9100 revision B applied in scope of ground testing of gas turbine engines.

The Quality Management System presented in the QUALITY MANUAL is accepted by the top management and personnel responsible for its implementation, maintenance and continual improvement of its efficiency.

On behalf of all my employees and my own I declare improvement and development of the QUALITY MANAGEMENT SYSTEM in accordance with requirements of the above mentioned international quality management standards.

PRESIDENT OF THE BOARD

M.Sc. Eng. Jan PIOTROWSKI
